

Cyber Items of Interest Brief

VIRTUAL STUDENT FEDERAL SERVICE

Project Title	Cyber Items of Interest Brief
Project Summary	Produce an enhanced Cyber Items of Interest Brief (CIIB). The CIIB is an internal agency report that is a compilation of Chief Naval Officer (CNO) reporting from sources available to the general public with the intent to provide situational awareness regarding current cyber events.
Country	United States

Project Description

Students will write weekly abstracts on cyber articles selected by the Open Source Research (OSR) Department which is then compiled into a CCIB. Abstracts are no more than 150 words and captures the key points of the article written in layman's terms to provide situational awareness regarding current cyber events to the general public. The abstracts or entire CIIB may be posted as part of the regular cyber tips/threat posts on our command social media sites and/or the command's internal and external sites. The CIIB will be reviewed by the Public Affairs Officer prior to being released for publication.
